## Products > Expansion Tanks

### Waterguard Expansion Tanks

Many local codes now require a closed system which can cause damage if there isn't a water expansion tank. Ours are durable and easy to install. A small price for insurance against damage. IAPMO approved.

- For use with residential and commercial water heaters
- In-line design, with 3/4" MPT Connection: installs in cold water line of water heater
- Field-adjustable 40 PSI Air Charge
- Drawn-steel tank with 2-coat bonded polymer inner lining
- Butyl diaphragm, for permanent separation of air and water, with no waterlogging
- 2-Gallon (ETC-2X), 5-Gallon (ETC-5X) and 10-Gallon (ETC-10X)
- Maximum Working Pressure 150 PSI
- Maximum Temperature: 200°F
- 5-year Limited Warranty
